

Ballistic Pendulum, digital multi-chronometer.

EQ166A

Function

Intended for experimental study, physics laboratory and conducting physics experiments about: movement in two dimensions, projectile movement, projectile launch, oblique movement, range and its uncertainty, launch speed, conservation of mechanical energy, kinetic energy, energy gravitational potential, amount of linear motion, amount of angular motion, ballistic pendulum, inelastic collision, oscillation period, etc.

Knowledge areas

Physics

Level

Graduation - Technical education
